

LANGUAGE DEVELOPMENT FROM 0 TO 5 YEARS

ONLINE VIGNETTES AND INFORMATION PAMPHLETS

HELPING YOUR CHILD DEVELOP HIS OR HER LANGUAGE

Our team of speech-language pathologists has developed video vignettes and pamphlets. The vignettes present information and tools to support your child aged 5 and under. The pamphlets describe language development according to age.

If you have concerns or questions about your child's language development (comprehension, interaction, vocabulary, sentences, pronunciation, hesitations and stuttering, etc.), contact your CLSC.
